Your APR may increase on an annual basis, depending on changes in the highest Prime Rate reported in the Northeast edition of the Wall Street Journal on the first business day of each November. We calculate your rate by adding a margin of 3.99-14.99 to the Prime Rate. The result is your APR. There is no limit on the amount by which your APR will increase at one time, but it will never be greater than 17.99% APR. Rate changes will take effect on January 1 and may result in an increase in the minimum payment or an increase in time it will take to pay off balance on card. Please refer to your statement for your APR.
